## SOME PEOPLE PREFER TUBS

Some people prefer to supplement their cattle with tubs rather than liquid feed. Tubs offer several advantages. These include mobility and being able to easily put the tub where the cattle are. In addition, our tubs contain higher levels of natural protein and can also be fed to horses. Liquid feed is generally cheaper than tubs, however, it is not as mobile and it does contain non-protein nitrogen.

Cobb Shipping Service handles Westway Sweetcake tubs in a variety of formulations. The Westway tubs offer high solids content that is 25 to 30 % higher in solids than typical poured tubs. Most cows consume 1 to 2 pounds/hd./day compared to some tubs that recommend a consumption of 2.5 to 3 pounds/hd./day. In addition, the Sweetcake tubs are very weather resistant. We have observed rain water just standing on the surface of the tub but not softening the feed.

Cobb Shipping stocks a variety of tubs and can get others as needed. Some of the more popular tubs include the all-natural protein 16 % and 20 % tubs with 5 % fat. For the dry cows we offer a 16 % all natural with 5 % fat and elevated vitamins and minerals. We also carry mineral tubs both with and without Altosid for Horn Fly control. Some of our customers will feed a mineral tub along with their lick tank.

You can pick up tubs at our Rewey location or we can deliver them to you. We can special order tubs for sheep, horses, or other specific needs. Let us know if you would like to see some feed tags or other literature on our tubs.

We are very happy to announce that Cobb Shipping has just published their new web site. The site can be found at [www.cobbshippingservice.com](http://www.cobbshippingservice.com).

In the web site we have a number of pages that detail the different products and services that we provide. Each page has photos and or articles that demonstrate our business.
